The quality and performance of pavement markings have increased in recent years thanks to better paint and thermoplastic materials and higher performing glass beads. In addition, new marking types have improved in particular the performance during wet conditions at nighttime by allowing better run-off of water. In parallel, cost of materials has increased having made road owners interested in knowing the actual amount of paint or thermoplastic applied. Measurement of the thickness of the markings is used for verification.

The Marking Thickness Gauge is a robust instrument which will last many years if handled with care and transported in the original transportation box.

**Specifications**
- Dimensions: 80 x 70 x 130 mm
- Weight: 950 gr
- Material: Stainless steel
- Mitutoyo Absolute Digimatic Indicator
  - Resolution: 0.01 mm
  - Range: +/- 12.7 mm
  - Accuracy: 0.02 mm
  - Display: LCD
- Battery and protection level
  - Battery ID: SR44
  - Battery type: Silver oxide
  - Battery life: Approx 20,000 hours under normal use
  - Dust / water protection level: IP42

**Warranty**
- 2 years

**The following parts are contained in the Marking Thickness Gauge delivery:**
- 1 Marking Thickness Gauge
- 1 Transportation box
- 1 User manual

DELTA’s Marking Thickness Gauge is a digital devise for measuring the thickness of pavement markings dry, after application. The Marking Thickness Gauge is very easy to operate and comes in a sturdy construction and ergonomic design. The Marking Thickness Gauge can measure markings within the measurement range of -12.7 mm to +12.7 mm / -0.5 inch to +0.5 inch. The digital display provides reliable measurement results in seconds.
